## Introduction to MissionaryPAL

MissionaryPAL is one of the 10 important pieces of The Elase Project. It is comprised of two parts. (Part one) There is a real lack of money when it comes to missionaries. Many churches have to raise \$75,000-\$150,000 once a year on a special Sunday to support missionaries. These missionaries do awesome work in many countries. This money many times has to be split to support several different missionaries. These missionaries are risking it all and living in very poor conditions. They also have limited resources due to limited funds. The people at the church that sacrifice it all to fund the missionaries in most cases, really can't afford to do it. MissionaryPAL has a mission statement to help ease the burden in this area. The money is spent for schools, Bibles, and Christian education materials. (Part two) MissionaryPAL will also provide money for better housing and transportation for the missionaries. Keith has talked about this issue for

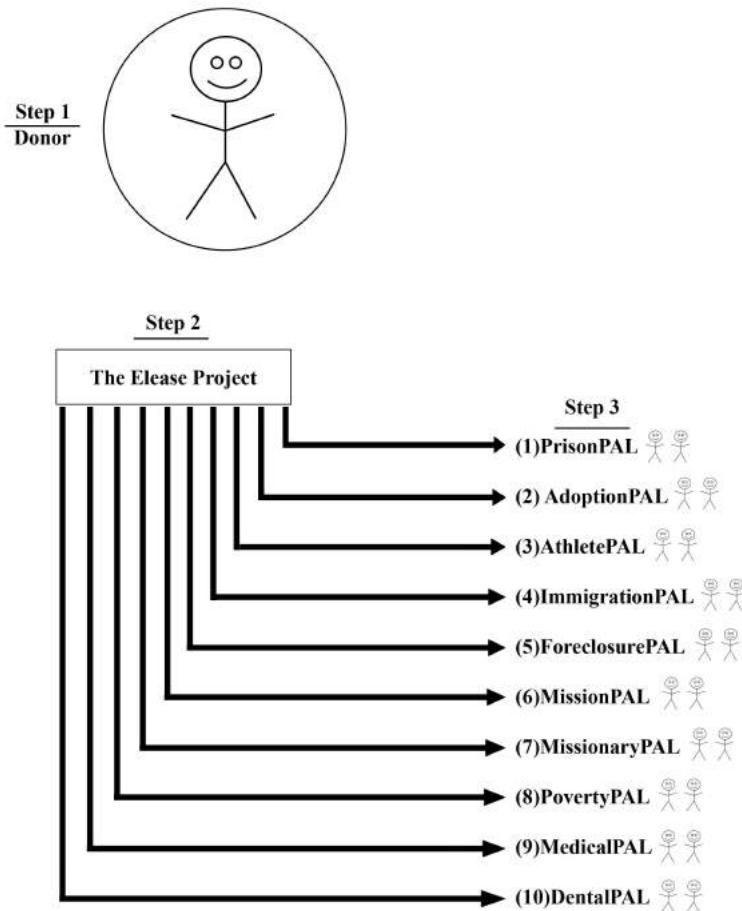

years. How are missionaries going to provide hope to others when their living conditions are not much better than the poor people that they are helping? The answer is simple. **MissionaryPAL!** Part two will provide the dollars necessary to provide excellent living conditions for the missionaries and first class facilities for church services and classes to teach the Bible. This program has the same theme as all of the other PALS in The Elease Project. The lack of money needs will be addressed unlike ever before all while easing the burdens on Christians that are giving at their local churches each week. The goal is to bring people to Christ that otherwise would have no chance, due to our program that teaches the gospel through out all of the world. Keith's mother always felt like she was responsible for him on judgment day. Keith would like to honor her by funding these missionaries in a way that works with better results. MissionaryPAL is in great hands and will be very successful.

# Section 2

## The Ten PALS Structure

The ten PALS (section) of The Elesee Project are unique in structure. When Keith Hatchett researched the wealthy people of the United States and how they fund charities, he found an unusual problem in that the donor had to say no to many charities each year and yes to only one or two. This is a problem and an uncomfortable problem as most people hate to say no to charities.

The Elesee Project was designed to help with this problem. Now a potential donor can donate to The Elesee Project and their money is equally divided into ten categories. The following diagram/flowchart demonstrates the process and lists the ten individual categories.

We Believe that "One" donation to the Elesee Project (helping those in desperate need of help), can benefit many in all ten areas of need.

## Section 3

# MissionaryPAL Beta Test

MissionaryPAL will be run by Frank Batson of Nashville, Tennessee. Frank is a preacher, a great man, a sound Christian, a Sunday school teacher, and an extremely successful businessman. Frank is a very respected homebuilder. Frank has known Keith all of his life. Frank has had such a big impact on Keith. When James Hatchett (Keith's dad), passed away in 2016, it was Frank Batson that was chosen to preach Keith's father's funeral. The Donelson Church of Christ already pilots a program to fund missionaries. Donelson Church of Christ and other churches that Keith has been talking to over the last eight years are ready to begin this work. With Frank's leadership and direction, MissionaryPAL will be a huge success. Keith wants it to be known that our family respects and loves Frank Batson and his family so much. We thank him in advance for his work with The Elias Project.
