

John David Cunningham Transdale 7-24-2023

Dear friends and family,

Thank you so much for supporting me on this journey. This has been by far the most difficult time of my life and without your support and encouragement I would feel far more lost in this walk. I have witnessed so many of God's miracles at perfect timing throughout this trial of faith. It's purpose is to build perseverance (James 1). The book of Ecclesiastes says there is a time for everything and that a cord of 3 strands is not easily broken. I cannot begin to express my gratitude for everyone who showed up to demonstrate their support of my sentencing. I feel that one side being full of beautiful women and wise men while the other side was empty illustrates fully what is going on in the court. I have now been waiting nearly 8 months for a denial of new trial (an archaic TN practice) to move forward with appeals and have suffered immensely during this trying time. ~~Both~~ At county jail, ^{Bledsoe} and at Transdale prisons inmates serving 10+ years have told me it was the hardest time they have ever served. This is the result of intense lockdowns, sometimes 24 hours a day for weeks, only getting 2 sack lunches of peanut butter sandwiches with no commissary, due to brutal stabbings of Warden, CO's, inmates, and inmate deaths from fentanyl overdose. In one week 10 inmates in my pod here at Transdale overdosed on fentanyl and one died who could not be resuscitated. This prison is severely understaffed and really needs to be taken over by TDEC

as they do not operate by TDOC policy in many ways. Trousdale feels like a third world country. There are many Nigerians who work here that barely speak english, the black population is violent while extremely racist against whites, the doors are easy to rig providing little security and most inmates are armed with some form of "bitch" knives which they use to collect debts for the seemingly unending supply of drugs that come in to the prison. Suboxone (OT/orange), K2 (blue/pink), Meth (ice/cold water), fentanyl (H/knockdown) sell for 10 times what they do on the street. Fortunately, I am very well regarded by my fellow inmates because they all know and see that I do no drugs and that I'm an extremely dependable person. In the week that I overdid in our pool, one was unfortunately my current cell mate. He is a high level Vice Lord who is over our building. When we overdid I gave him CPR for 10 mins to save his life, but that night a guy named Lord who was a Vice Lord brother of his did die from the same supply. Fortunately my cell mate has not done anyone since. I try to minister to him day by day and encourage him as he is getting out in 90 days after finishing a 12 year sentence for armed robbery, possession of assault weapons and narcotics. According to TDOC, Trousdale must ship all minimum security inmates - which I am, so I may be sent to a much better prison soon. I recently celebrated my 35th birthday receiving many gifts and letters from my loved ones. It means so much to hear from you, I am so sorry my communications are so strictly

1

Limited. I have no access to text or email in prison, with an extremely limited cell list of only 10 numbers, with 2 legal attorneys. I am living my most righteous life completely free of sin despite these intense restrictions. I am so thankful to our Lord God and Saviour Jesus Christ for His faith in us, that we may receive the gift of grace by His finished work on the Cross - His triumph over sin and over death by the law - Israel's stumbling stone - the stone the builders rejected which is now the corner stone of our salvation. "Whit while I make your enemies my footstool." "The timing will be perfect" God's timing always is, even when we are oblivious of all He is continually doing for us out of our sight and mind for His perfect purpose to His ultimate glory. Rejoice! No one enjoys suffering, but we can count it as joy in His mercy. I have the fullest faith His way will prevail, as it always does, and that we will see life giving redemption come from all of this. Thank you for your prayers, your support, and continuous glorying my story.

In His holy kindness, tender mercy, unlimited righteousness, gentle grace, ~~and mercy~~, living peace, and ~~and~~ fulfilling purpose - God Bless,

John-David Cunningham

(Please type this to send) PS. After 2 months of intense lockdown and SOFT team presence I was finally able to go to church

Sing praise to God, and take communion. The very next week my parents Elliott and Mary Kathryn were able to come visit me for the first time in 6 months. twice. This is a big breakthrough, relatively speaking, and I pray this is a sign Jesus is opening the pathway to my freedom and release from this wicked bondage. I pray everyday for my children's safety as I am always concerned for them in Corrie's custody. She is an extremely evil woman who has done so many people wrong, including my own children, her adopted children, and her immediate family - suing nearly all of them and threatening to sue them repeatedly and frivolously. My children are in just as much of a prison as I am in under her control. Thank you for all you are doing for our deliverance into freedom. God Bless

So Many Miracles

The last verse of John says Jesus did so many things that went unwritten - and I can testify in my own life that it would be very difficult to document all of the synchronicities and miracles of God's timely and righteousness just from witnessing it in an own life - much less ^{than} in the multitudes surrounding Jesus Himself, in the flesh. Parental Alienation is a universal issue as we have been alienated from our Heavenly Father, led astray to be confused and slain in sin. The attack on our constitution is to alienate us from our inalienable rights given to us by the Founding Fathers who birthed our constitution by revolution. Finally, the attack on the nuclear family is the closest proximity war in our country leading to parental alienation and the taking of children to be parented by the state.

Personally, I was alienated from my children by a professional alienator "Connie Reguli" - who claims divorce is her "bread and butter" with the express purpose of taking custody of my children due to herself being barren. "It's just business" - DA Prosecutor Hugh Ammerman

To this day I am fighting for my children. I cannot tell you how many people I would meet - more and more up to my trial date, who would tell me they had a degree of parental alienation in their life or the life of someone they love - and the encouragement

they would give me to keep going and to keep being present, as much as possible. It feels like as much as God (Heavenly Father) has miraculously been there and showed up for me, Satan has tried to sabotage His plan repeatedly using every way he can to take my children into his custody. Statistically children without fathers grow up with significantly more issues, I know my children have phenomenal potential, and this is why this severe attack has come upon my bloodline.

Anouk was smiling at me and waving after she boldly testified in front of the jury at only 10 years old saying No to the charges when asked directly by DA Prosecutor Hugh Ammerman interjecting - "And I lied about all of the inappropriate stuff in the second interview," which is where all of the charges come from. This is the boldness of Esther potentially facing death in the midst of Haman's Plot to kill her people. There is no question the same spirit behind Haman's Plot is at work here, but thanks to the Word of God we know what will happen. In the meantime, I have served our Heavenly Father and our Lord and Savior Jesus Christ by ministering to inmates in my proximity through faith and by example. Our Lord's favor is absolutely over me and I cannot express my gratitude for all of your prayers as I continuously feel an angelic presence bringing me peace. I pray for you to be blessed in His ultimate purpose,
